

## HAND SEWING WORKSHOP

The course builds on the knowledge the students have gained in the theoretical eLearning course which has covered [fabrics, fibres and weaves](#), and [care labels](#).

Our workshops are based on the approach: Show-Me/ Guide-Me demonstrations, and Let-Me-Try activities.

- Each student will be provided with a complete sewing kit and fabric samples to practice performing the tasks outlined in the learning objectives.
- The theoretical and task-based assessment ensures that both the students' knowledge and skills are evaluated.
- A certificate of achievement is awarded upon successful completion of both assessments.
- The course covers risks and all necessary health and safety measures associated with ironing and steaming.

### LEARNING OUTCOMES

At the end of this course, learners will be able to:

- ✓ Recognise when a repair or thread snipping needs to be done.
- ✓ Perform basic repairs to garments.
- ✓ Understand the importance of the presentation of garments and other items after they have been repaired.

### LEARNING OBJECTIVES

The students will be able to understand the purpose of the different hand-sewing tools and accessories and to select the appropriate tools to perform repairs.

The students will be able to:

- Repair a snagged thread
- Snip loose threads, and not the catch the garment!
  - Unpick stitching
  - Remove a care label
  - Repair hems and seams
  - Sew on or secure a button
- Identify dos and don'ts for repairing garments and other items
  - Use an iron correctly whilst doing repairs
  - Recognise the risks and associated safety measures associated with hand sewing
  - Correctly present garments and other items after they have been repaired

*Created for the luxury industry, this workshop was designed by professional instructional designers alongside industry experts.*
